

## Wheat Champion In Sanatorium

**Herman Trelle, Former Coleman Boy, Finds Price of Public Service Hard on Health**

It is with regret that old-time residents of Coleman will learn of the sickness of Herman Trelle, the world's wheat champion, whose boyhood days were spent here and who went to school with the Graham family and others of the early days of the town's history. Writing from Keith Sanatorium, Calgary, in answer to a letter requesting a biographical sketch of the man who has made the Peace River country famous by his grain exhibits at International exhibitions, he replies to The Journal:

"Just a word—all I am able to write just now, for your kind and thoughtful letter—long, long ago—thanks!

The price of public service is hard on health, but I will conquer this sneaking T B too!

Remember me to the Grahams—Dorothy, Billy, Frank, Charlie, Arthur and the other old timers of my childhood days. Almost got down to visit the Pass last fall. Hope to when better. I'm not supposed to write, still in bed since June 10, and will be here about nine months."

—Sincerely, HERMAN TRELLE

One of his early tutors was the Rev. Mr. Robinson, an Anglican minister, now living at Sherburne, Nova Scotia, who until a school district was organized held a private school in Coleman.

Trelle's success as an agriculturist is unique. Trained in the environment of a coal mining town, in a district where hardly a blade

## Special Children's Meetings

Messrs. C. C. Bowen and J. M. Fairholm of Vancouver will hold a series of services next week in the K of P hall, of which details are given in an advt in this issue. The meetings are specially for the children, and adults are welcome.

of grain is grown, it is indeed surprising that this young man turned his brain energy towards producing the best specimen of wheat in the world, winning premier honors at Chicago International Truly he was reared in an atmosphere as far from agriculture as are the poles apart, for the reason the family came to live in Coleman was that prior to that they lived at Frank, the town which was wiped out by the famous rockslide of April 1903, when huge masses of overhanging rock at the summit of Turtle mountain came thundering down on the mining village and spread itself over an area of almost two square miles, wiping away every trace of the buildings in its path and snuffing out a hundred lives of whom no trace was found, except a few bleached bones were discovered.

A humorous sidelight on that tragedy was that Herman's father, who in those days was a contractor, was surprised that the tippie which he built at the mine and on which he used strong bolts and eight inch spikes, should have been swept away as if it had been a pack of cards.

Trelle's career is a striking example of assimilation of children of foreign-born parents into Canadian national life. His name of course indicates that he is of German parentage, but his contribution to the great basic industry of agriculture stamps him as one hundred per cent Canadian.

## Banff Festival Artists

Herbert Hewston

Stanley Hoban

Mary Frances James

These artists will appear at the Banff Scottish Music Festival to be held at the Banff Springs Hotel, August 30 to September 2, sponsored by the Canadian Pacific Railway. Mary Frances James, soprano, will take a leading role in the ballad opera by Dr. Healey Willan woven around the story of Bonnie Prince Charlie and Flora MacDonald. Stanley Hoban, Winnipeg baritone, and Herbert Hewston, tenor, will be among the assisting artists.

In addition to the Music Festival there will be the Highland Gather-

ing of pipers from most of the Canadian Scottish regiments who compete for the E. W. Beatty Trophy, the winner of which represents the outstanding piper of the year in Canada. Further, there are Highland Games staged such as tossing the caber and all the other sports which feature the great annual meet in Scotland. The Festival is in short a getting together of the Scottish race from all over Canada and is patronized by visitors from all parts of the North American continent.

## Death of Arthur G. Wilson

Arthur Gardiner Wilson, aged 28 years, died in hospital here on Saturday morning. On the Monday previous he was operated on for appendicitis, and on Friday he became restless, causing anxiety to his relatives. The end came at an early hour next morning. He is the son of Mr. and Mrs. Mathew Wilson, and leaves a wife and three children. He was employed at Mc Gillivray mine.

The funeral was held on Tuesday afternoon, the Rev. H. J. Bevan of the United church officiating. Members of the Masonic and Orange Lodges, and the local mine workers union, of which three organizations deceased was a member, attended. The pall bearers were D. Gillespie, S. Howarth, D. Gardiner, J. Ewing, Pete Sharp, Neil Fleming.

## Card of Thanks

Mrs. Arthur Wilson and Mr. and Mrs. Mathew Wilson and family desire to thank their friends for expressions of sympathy received in their bereavement, and the hospital staff for their kindness. Also those who loaned cars for the funeral and those who sent flowers, as follows: The Family, L. O. L. 1895, Summit Lodge A. F. & A. M., L. O. B. A., Minerva Chapter O. E. S. 41, United Mine Workers of Canada, Mr. and Mrs. R. Gillis, Mr. and Mrs. W. Ireland, Mr. and Mrs. A. Walker, Mr. and Mrs. J. Burrell, Mr. and Mrs. I. A. James, Mr. and Mrs. W. Mitchell, Ponoka; Mr. and Mrs. J. Aitken, Mr. and Mrs. Sam Moores, Aunt Jeannie, Uncle William and Cousin Andrew, Lethbridge; Bob, Nancy and Billy Coalhurst; Mr. and Mrs. Geo. L. Othman, Lethbridge; Alex. Nettie and Family, Lethbridge; Mr. and Mrs. G. Ford, Mr. and Mrs. Robt. Morris, Mr. and Mrs. Hogg, Lethbridge; Mr. and Mrs. James Kerr, Dr. and Mrs. McNally, Lethbridge; Mr. and Mrs. John Hamilton, Lethbridge; Miss C. Armit, Lethbridge.

F. Graham, sr., left a very nice bunch of pansies and sweet peas at The Journal office, grown in his garden in the heart of town, for which thanks are expressed.

## New Road to Corbin

Forest Ranger Boulton and H. T. Halliwell visited Corbin on Saturday, travelling over the new motor highway, which is a long awaited boon to the people of that mining town, and which parallels the railway line of the Eastern British Columbia Railway from McGillivray station of the C. P. R. They returned by a picturesque route through part of the forest reserve, which is untouched by fire and which stands out in pleasant contrast with the British Columbia side, where forest fires of years past have left thousands of gaunt skeletons of trees. Travelling over this route, which is ideal for saddle horses, but which would be a sore trial to motorists, a fine view of mountain peaks is obtained, including Mount Plutney, which is 200 feet higher than "The Crow," and which Joe Spiveak, a Coleman boy living at Corbin, climbed last year, and from which he obtained photographs of Crow's Nest Mountain.

## Schools Re-Open on Tues.

Tuesday morning, Sept. 3, will see the grand rush for school books, rulers, pens and pencils, and the town will assume an atmosphere of increased activity.

Principal Hoyle has returned with his family from summer vacation, and the high school will see Miss Gorcey return, and Miss B. L. Dunlop of Saskatoon will take the place of Miss Monica Adams, whose impending marriage to Mr. Lynch-Staunton of Lundbreck is announced to take place in September.

Miss Olga Hole and Miss C. Milly are new appointments on the public school staff. The classes to which teachers will be assigned have not yet been decided.

"Billy" Short of Lethbridge spent a glorious week here with his cousins, Allan and Frances, and experienced the thrills of trout fishing at some of the popular spots in the district. He returned on Monday night to be ready for school re-opening the next day, somewhat loath to leave the mountains.

## Enjoyable Picnic Near Mountain

A picnic was enjoyed by several people from town with their families a couple of Sundays ago at the camp of Geo. Walker and M. Dingwall, who are in charge of the big flock of sheep from Lethbridge, on the east side of the base of Crow's Nest mountain. Mr. Milroy, of Lethbridge Experimental Farm was at the camp for the day, and among those present were Mr. and Mrs. Mathew Wilson, Mr. and Mrs. Joe Plante and children, Mr. and Mrs. Gillis and children, Mrs. Alex. Muir and children, and a number of other visitors. They enjoyed the day in berry picking, pony riding and other forms of amusement, and appreciated greatly the hospitality of Messrs. Walker and Dingwall.

## ST. ALBAN'S CHURCH

Sunday, Sept. 1; 11 15 a. m. Holy Communion.

A vestry meeting will be held on Sun., Sept. 8.

The first meeting of the fall of the J. W. A. will be held on Tues., Sept. 10, at 4.30 p. m.

Sunday School will commence at 2.30 p. m. on Sunday, Sept. 8.

There will be no choir practice this week but a full attendance of the members is requested on Sunday next at the morning service.

Mrs. A. T. Anderson of Vancouver, is a guest of her sister, Mrs. Currie, for a few weeks.

Rev. A. D. Currie was the guest of F. W. Haas at the Rotary club luncheon last Tuesday in Calgary.

At the same time Mrs. Cartwright and Mrs. Currie were the guests of Mrs. Haas at the Calgary Golf and Country Club.

## The Salvation Army Annual Harvest Festival Appeal

We wish to announce that our yearly Harvest Festival Appeal will be made in all the towns of the Crow's Nest Pass during the month of September.

This money is to be used for local purposes.

We thank you for your splendid support in the past and although times are rather hard we trust you will do your best for us.

May God bless you in the giving.

Lieut. J. B. Meakings.

Lieut. J. Zoutendyk.

## Conservative Leader Urges Protection

**Asserts That Present Trade Policy Helps to Enrich States at Expense of Canada**

At Fernie last evening the Hon. R. B. Bennett, Conservative Leader in the Federal house, gave a clear and business-like exposition of his reasons for advocating a protective tariff to foster the development of Canadian industries and thereby increase employment and prosperity for Canadians. Hundreds of millions of dollars are sent annually to the United States to purchase goods which should be manufactured in Canada, building up that nation at the expense of Canada. United States buy our raw materials and later sell them back to us as manufactured goods, receiving not only our cash, but furnishing their people with jobs, which, if the goods were manufactured in Canada, our own people would take part in the making of.

He also deplored the lack of vision on the part of the Liberal party in making trade agreements which adversely affected the dairy industry, and for permitting the dumping of Washington fruit on the Canadian market whereby the British Columbia fruit grower was forced to sell at a loss.

Following the meeting, Mr. Bennett left by car for Macleod, to connect with the 7 a. m. train for Calgary.

## Local News

Harold Shonwood of Strathmore is visiting his brother here.

Mr. and Mrs. W. Bell and daughters returned last evening from a visit to the coast cities.

Mr. H. V. Hummel returned on Sunday from Holy Cross hospital, Calgary.

Fraser McLeod son of Mr. and Mrs. H. McLeod, is home on holidays from Alberta University.

Miss Hutchison of Wrentham, was the guest of Mrs. Clifford during the week.

Mr. and Mrs. Dewar and Evelyn and Bobbie are away on a motor trip.

Well, it is easier to wash a pair of legs than to wash a pair of stockings.—Toledo Blade

WORLD HAPPENINGS  
BRIEFLY TOLD

Canada was the principal country with which the United States traded in June, leading all the other countries in both exports and imports.

Erich Remarque, author of "All Quiet on the Western Front," may be the recipient of the next Nobel prize for literature, it was reported from Stockholm.

The British Columbia Government recently announced the distribution of liquor profits amounting to \$682,919.48 covering the six-months' period ended March 31.

The first repercussions of the small crop in western Canada was felt at Sarnia, when the John Gooding Thresher Company reduced its operating staff by one-third.

Hon. Aulley Morrison, Chief Justice of British Columbia, was among those who received the degree of doctor of laws at the convocation exercises, at Dalhousie University, on August 26.

Closer co-operation in air transport matters throughout the world began between Great Britain and France, was discussed at a meeting of Lord Thomson and Laurent Eynac, respective Ministers for Air.

Miss K. Bloomfield, 24, is the first woman in the state of Victoria, Australia, to gain an air pilot's license. She has passed her final tests—they were pretty severe ones at that—with flying colors.

The Graf Zeppelin's flight from Friedrichshafen brought forth a \$20,000,000 project for regular German-Russian-Japanese air service with terminals in each of the three countries. It was announced that plans for the scheme are completed.

Sir Frederick Williams-Taylor, of Montreal, general manager of the Bank of Montreal, has resigned to assume the position of vice-president of the bank. H. B. MacKenzie, formerly assistant general manager, succeeds Sir Frederick as general manager.

## Big Jamboree Over

Many Friendships Made At Gathering Of Boy Scouts

Tens of thousands of boys trooped out of Arrow Park, England, when camp was broken and the great world jamboree of Boy Scouts came to an end. Fifty thousand boys left for their homes in nearly fifty different countries.

The previous night was passed largely in leave-taking as big contingents of boys trooped the camp and bade their comrades farewell. At dawn they began passing through the park on their homeward journey to far countries of the earth. They took with them the farewell message from the chief scout issued before he left the camp, the keynote of which was "From now on the scout symbol of peace is a golden arrow."

The total number of visitors was 214,422. The next jamboree will be held in 1933. The place will be determined at a conference to be held at Salzburg, Austria.

## Development Of Peace River

Country Has Gone Ahead Rapidly In Last Few Years

The first shipment of grain out of the Peace River District, was made up of three cars of wheat hauled by team 85 miles from Vanessa to Reno. There were no highways or telephones, and only two small rural schools then. Today, there are 1,650,000 acres under cultivation, with a prospective crop of 15,000,000 bushels. Population has increased from 3,000 to 50,000; there are schools, churches, flourishing stores, elevators, electric light plants, highways and telephones.

The farmer may hatch his chickens by electricity, raise them using electric light instead of sunlight, and finally try them for the table by the use of an electric range.

Circus Manager: "The height of elegance to leave the door of the lion cage open."

Tamara: "Do you think anybody will 'steal your lion'?" — Fraser Press, Prague.

Church At Jasper Is  
Soldier's Monument  
Gift of English Lady In Memory Of  
Her Son

Unique among the churches of Canada is the little church of St. Mary and St. George, of Jasper, which was consecrated recently by the Bishop of Edmonton. The building, a beautiful structure of stone and stucco, with a tiled roof, was built at a cost of \$17,000 from a design by A. H. Calderon, of Edmonton, and is a gift to the parish from a lady in England, who wishes her name to remain anonymous.

It was presented in memory of her son who was killed in war, and beneath the corner stone, which was laid last year by His Excellency The Governor-General, lies the testament which was found on the young man's body when he was carried out of "No Man's Land." The furnishings and fittings of the church were also the gift of the unknown donor, while the bell was presented by Viscount Willingdon.

## May Kill His Art

Russian Who Makes Pictures In Human Hair Deplores Robbed Fashion

G. Bouchoroff, the Russian artist who has received a certain distinction for his pictures in human hair, fears that the bobbed hair fashion may kill his art. He needs long strands for his work, and the supply of them is becoming shorter, and shorter. At first G. Bouchoroff's pictures are said to be indistinguishable from oil paintings. He blends the various shades of hair on his palette as an oil painter mixes his colors. His canvas is a piece of silk or linen cloth, and his brush a fine knitting needle. His method of weaving the hair into the cloths, he says, is similar to that used in making the famous Gobelins tapestries. Bouchoroff started producing his pictures at the age of five when apprenticed to a hairdresser, and while a war prisoner in Germany he spent his leisure in practice.

VOGUE OF PLAITS

Fluttering plaited skirt is such an attractive fashion for growing girls of 8, 10, 12 and 14 years, as seen in Style No. 605 with flat hipline, and simple bodice with neckline trimmed with plaited collar. Long sleeves also have turn-back plaited cuffs. Neckline and hipline bows show feminine influence. Plaited trim in red and white with bows of and so inexpensive. Gingham check in printed voile in brown and white with brown velvet bows, maize shade in shantung with bows omitted, and sports weight linen in orchid shade with white organdy pleated collar and cuffs are dainty and practical suggestions. It can also be made with short sleeves as shown in more back views. For early Fall, it will be delightfully smart, made of navy blue wool crepe with vivid red crepe de chine pleated collar and cuffs. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

## AN OUTSTANDING EXHIBIT

In his address before the Rotary Club, and the Calgary Exhibition and Stampede, Hon. J. D. McGregor, Lieutenant-Governor of Manitoba, for many years Canada's most outstanding live-stock man, referred especially to the demonstration put on by the C.P.R. Supply Farm, of Strathmore, which emphasized productive possibilities of good dairy cows. Mr. McGregor said that he considered it to be the best, from an educational point of view, he had ever seen at any live-stock show.

As shown in the accompanying photograph, five cows of various ages were used to emphasize that high production increases profits. Two mature cows and one four-year-old heifer, one three-year-old heifer, and one two-year-old heifer were included in the group. Each of these had gained an official record within five months, and their total production for 365 days was 127,583 lbs. of milk. The first cow to the left, "Strathmore Sylvia-89340" by producing 39,371 lbs. of milk was recognized to be the highest milk producer in Canada to finish an official yearly record during the past year and a half. The second cow, "Belvedere de Kol Ruby-82,632," finished on June 14th, with

27,892 lbs. of milk, and immediately was shipped to Brandon, where she won second prize in very strong competition. Her yearling heifer was bred at Brandon, Calgary, Edmonton, Saskatoon and Regina exhibitions, and was Junior Champion at Calgary and Regina.

The next is "Valley Farm Francy-82615-11319." She produced 22,922 lbs. of milk, and 820 lbs. of butter, which is 2,357 lbs. of milk and 22.5 lbs. of butter more than the best two-year-old record reported in Canada in 1928.

According to the Dairy Commissioner of the Province of Alberta, the average dairy cow in that province produces 3,950 lbs. of 4 per cent. milk. These five cows produced as much as 32 average Alberta dairy cows. Their milk, sold to the Union Milk Co., Calgary, at regular Dairy men's prices, brought \$3,214.10, or an average of \$642.82 per cow. This

revenue returned more than \$475.00 per cow above feed costs.

The milk cans in the picture were used to illustrate the amount of milk produced in one year by Strathmore Sylvia. About one-sixth of the cans are visible in this picture. Altogether there were 479 cans—representing a production of 2,837 gallons of milk. This exhibit attracted a constant stream of visitors who spent a good deal of time studying the material attractively displayed on show cards.

There are approximately 600 pure-bred Holsteins in the famous herd at Strathmore, Alberta. The show herd of 15 head won 100 first prizes at eight major exhibitions in 1928. Under the advanced registry system of the Holstein-Friesian Association of Canada, there are 40 Gold Medal and 73 Excellent cows in this herd. This is the largest number of Gold Medals in any herd in the world.

Some very distinguished visitors happened to come along just as this photograph was about to be taken. The two ladies are Dowager Lady Pentland and her daughter, Hon. Miss Sinclair. The gentlemen are Lord Pentland and, on the left, George H. Jones, manager of the Strathmore Farm.

## Recipes For This Week

(By Betty Barclay)

## CHIFFON PIE

1 1/2 cups sugar.  
1/2 cup flour.  
1/2 teaspoon salt.  
1 1/2 cups boiling water.  
Juice of 1 lemon.  
Juice and grated rind of 1 orange.  
8 eggs.

Mix sugar, flour and salt; add boiling water, stirring constantly. Cook 15 minutes. Add well-beaten egg-yolks, rind and juice of fruit and cook until thick. Cool. Make meringue of the whites of the eggs, 1/2 cup powdered sugar and 1 teaspoon lemon juice. Whip one-fourth of meringue into custard mixture and turn into baked pie shell. Cover with remaining meringue and brown in moderate oven.

## GREEN TOMATO PRESERVE

3 pounds sugar.  
4 pounds green tomatoes.  
3 lemons.

1/2 tablespoon preserved ginger.  
The above table merely gives the correct proportions. Most women will desire to prepare several times this amount at a time. Wash the tomatoes, remove any dark spots about the stems, and weigh. Cover with boiling water, let stand five minutes, drain and slice into a preserving-kettle, placing a layer of tomatoes, one of sliced lemon, then the sugar with the ginger sprinkled over it. Let the mixture stand overnight. Drain and boil the syrup for ten minutes. Skim, add the tomatoes and cook rapidly until they are clear. Pour into clean, hot jars and seal.

## A Long Phone Call

Woman In London Speaks To Hospital In Sydney, Australia

A conversation between a Hampshire widow and the matron of a Sydney, Australia, hospital, during the first time that a private telephone has bridged the 13,000 miles between London and Sydney.

Jack Sigrist, 19-year-old cadet on the "Valencia" now in Australian waters, was calling for his mother in delirium and, although radio telephone connections between London and Australia are still in the experimental stage, the post office department made arrangements so that Mrs. C. J. Sigrist was able to speak to the hospital matron for 10 minutes and learn that her son was improving.

The museum of the American Indian, in New York, grew out of the purchase by George G. Heye of a Navajo Indian shirt.

Barns are popularly painted red because oxide of iron paint, which is cheap and durable, can be obtained in red color only.

## Snow Houses a Myth

Few Eskimos Have Ever Seen Or Heard Of One

Eskimos are frequently seen sweating under a powerful sun. The general idea of Eskimos and all inhabitants of the Arctic Circle is that they live in conditions of eternal winter. Quite wrong Mr. Stefansson, the Arctic explorer, has been telling a Cambridge audience. The wildflowers of the Arctic are exquisite, he says, and very few Eskimos have ever seen a snow house—or heard of one except at school!

## Inside Information

Science has perfected a tiny camera that can be lowered into the human stomach to take sixteen pictures of the interior department from all angles. This is getting an inside view of the situation. Afterward the pictures may be enlarged.

A weekly airmail service between France and Madagascar will cross the Sahara Desert by night, and will be instituted as soon as the desert route is lighted.

## Test For Your Eyes

Normal Vision Sees Objects Clearly Fifty Yards Away

Are you good at judging distances? It is said if you have normal eyesight you should be able to see a man's eyes at fifty yards; at one hundred yards you may see the buttons on his coat; and at three hundred yards you may just see his clothing. If you can see his clothes, face, while the color of his clothes can be distinguished at four hundred yards. Of course, on a clear day, things look nearer than when the day is cloudy.

## Larger Production Needed

"Larger production of high quality agricultural goods is what is necessary to Canada if the country is to continue as an exporter of agricultural products," declared Hon. McPherson, Federal Minister of Agriculture, informally opening Vancouver's 20th annual exhibition.

The woman who has tact invariably knows what not to do.

Light and airy—the flighty blonde.

## SUNDAY SCHOOL LESSON

SEPTEMBER 1

## EZRA'S RETURN TO JERUSALEM

Golden Text: "The hand of our God is upon all them that seek Him, for good."—Ezra 8:22.  
Lesson: Ezra 7:1 to 8:36.  
Devotional Reading: Psalm 131:8.

## Explanations and Comments

With the Permission of Artaxerxes, Ezra Goes To Jerusalem, 7:6-10. Ezra was a descendant of Seraiah, the chief priest during the reign of the last King of Judah, and traced his ancestry back to Aaron. He was "a ready scribe of the law which the Lord God of Israel had given." He studied the law, and not only copied it but interpreted it. He requested permission from King Artaxerxes to go to Jerusalem and the king readily granted. With a company of Jews who wished to settle in Judea, and with priests, scribes and singers for the temple service, Ezra set out to keep the temple gates (1 Ch. 9:37), and Nehemiah, servants for the temple (1 Ch. 9:2). He left Babylon in the first month (Nisan, March-April), of the seventh year of King Artaxerxes (458 B.C.), and arrived in Jerusalem (Ab, July-August), after a journey of nearly four months. His purpose was to teach the Jews the law to the people there. As for himself, he had "set his heart to seek the law of Jehovah," and what was more, "to do it."

Between the knowing what should be done and the doing of it there is, alas! too often a gulf never bridged. Mere knowing about others' needs or mere expression of regret that their needs do not avail; the true philanthropist is one who knows and sympathizes with the need of the good you meditate," in the words of the Bushnell, or if you never find the time for doing it, have the frankness to confess that your good intentions are hollow and worthless."

The One Volume Commentary states that the Jews who remained in Babylon, and who were surrounded by a population wholly heathen, were marked off from their neighbors by a much deeper line of cleavage than were the Jews of Palestine, to higher standards of religious devotion prevailed among them; consequently, when the religious laxity of the Jews of Palestine became known at Babylon, Ezra was sent to inquire into it (verse 14), to introduce reforms, and by authority of the Persian king, to enforce the observance of the Law by means of penalties (verse 26). Artaxerxes not only granted Ezra's request, but gave him much gold and silver for the temple, and also a letter in which he directed him to enforce the law whatever Ezra might ask. "Blessed be Jehovah, the God of our fathers," exclaimed Ezra, "who hath put such a thing as this in the king's heart, to beautify the house of Jehovah; and to extend lovingkindness unto me!"

Victim Of Bizarre Blizard Lost in a blizzard that howled down out of the Arctic on June 21 last, Ivan McKay Christie, Bathurst Inlet trapper, was frozen to death. His faithful husky dog was discovered alive by the search party that set out on the trapper's trail after the blizzard had spent its force and is now at the Royal Canadian Mounted Police northern headquarters at Herschel Island. Christie's body was buried at Bathurst Inlet.

Too uppish—the highbrow.

## WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls as long but in one width of 86 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 120 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

## Use WINDOLITE and let

YOUR PLANTS

YOUR CHICKENS

YOUR CATTLE

Beak in 100 % Sunlight

Send for booklet "WINDOLITE"

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that the use of WINDOLITE as a substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have a healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new impetus to the poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of flocks and is now being used in domestic and household requirements.

## The Singing Fool

By HUBERT DAIL  
Copyright, 1927, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, the singing waiter at Blackie Joe's New York night club, has written a love song to Molly Winton, but she treats him disdainfully because he is only a waiter. Finally he goes to the floor and renders the ballad himself, hoping to touch her heart. Marcus, the famous Broadway producer, is in the audience and offers to buy the song. Molly makes up to Al, so the latter insists that Marcus hire Molly to sing the number in one of his revues. Marcus agrees. Grace, the little cigarette girl, is heart-broken when she finds Al is leaving, for she is deeply in love with him. Al and Molly marry and both score successes on Broadway. Once Al visits his old friends at Blackie's and Grace is delighted to see him. Then he returns to Molly's dressing room in a fit of jealousy. She is with his friend, John Perry. Al does not see John surreptitiously press Molly's hand as all three leave together.

### CHAPTER X.

They descended the elevator from the Manhattan Roof Theatre to the street, where Al looked around for a taxi. John Perry, following after, took Molly's arm, guiding her through the dense after-theatre crowds toward the curb.

Broadway was at its best—two wide currents of human beings moved compactly up and down beneath the brilliant canopy of lights from electric signs. There was romance in the crowds, and power, and feeling of dreams carried from the theatres that dotted the Street of Lights. There were shrill cries from taxis, the giggle of girls leaning on the arms of their escorts, the piercing whistle of the traffic cops stopping and starting the never-ending line of motor cars as the lights went from green to red, and back again. A happy, carefree spirit distinguished the crowd. But Molly turned bored eyes on this fantastic display of modern Babylon as she waited impatiently for the taxi.

"Why doesn't Al hurry and get one?" she inquired peevishly of John Perry.

"Steady, sister. He's doing the best he can," answered Perry.

But now a taxi driver saw Al's beckoning hand and swung up to the curb. They piled inside and the driver sped away toward the palatial skyscraper apartment in the fifties where Al and Molly lived. Molly snuggled down between the two men.

"Al," she remarked after a moment, "why do we always have to travel in taxis? Why can't we have a limousine and a chauffeur of our own. Everybody else does."

Al did not notice the complaining note in her voice. "I've been thinking that same thing—we can swing it easily now. Tomorrow you can pick one out. What kind?"

"I was thinking of a Rolls-Royce," said Molly eagerly.

Al hesitated and Perry gave a little laugh.

"Nothing cheap about Molly," said the racketeer.

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because it is harmless, tasteless, does neutralize many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

It's bound to mean the greatest happiness in the world to both of us. Don't you see that?"

"No, I don't. I see that it will ruin my career. I'll have to leave the show in a little while and while I'm gone Marcus will get a new ballad singer. Molly will forget me by the time I'm ready to come back. And how do I know Marcus will give me back my job? I have the best spot in the show now. Your point of view is just plain selfish, because the whole thing doesn't affect you. But I see the other side."

Al stared at her bewilderedly for a moment. Then he said quietly: "Molly, your nerves are on edge or you wouldn't talk that way. You don't have to be afraid—Marcus will always put you in as his headliner. He knows I wouldn't write another song for him if he didn't. But he wouldn't think of giving you the go-by, anyway. He knows what an attraction you are."

Al paused to regard Molly with a reassuring smile, but she did not see it. Her eyes were fixed somberly upon the floor.

A helpless look passed across Al's face.

"As for my being selfish," he said humbly, "well, perhaps I am. But I don't mean to be. I simply adore you, Molly, and it would give me the greatest happiness I can think of for us to have a child. It would make all we have achieved seem worth while."

Molly rose wearily. "I'm going to bed."

Without kissing Al good night or even looking at him, she walked slowly toward her bedroom, her head dejectedly forward. He heard her bedroom door slam sharply.

Instead of going to his own room and undressing Al lit a cigarette and paced the floor. At first he was agitated and worried about Molly. But gradually he argued himself out of the disturbed state of mind. After all, it was natural that she should be upset. Perhaps the strain of her nightly performances was too much for her. In the morning this cloud would pass from her.

He finished his cigarette, put out the lights and went to the dressing room window, whence he could look out on the yellow glow from the city lights.

As he stood by the window, dreaming, meditating, already planning the nature of the child that was to be long to him, he heard the tinkle of the phone in Molly's room. Her door must have opened for he heard Molly's faint voice:

"No, no. You mustn't call me." Before Molly hung up Al thought he caught the word "John." But no, he must have been mistaken. John Perry wouldn't be calling up at this hour.

(To Be Continued.)

### Broadcast Sensations

#### Of Parachute Jump

Man Started To Talk At Height Of 10,000 Feet

The sensations experienced by a parachute jumper were broadcast from Roosevelt Field, New York, by Henry G. Bushmeyer, while he was plunging to earth from a height of 10,000 feet. It was believed to be the first experiment of its kind.

Bushmeyer carried a 24-pound short wave transmitting radio strapped to him, and held the microphone in his hand. When he stepped off his airplane 10,000 feet up, he started to talk into the " mike" and the words were picked up on the field by a short wave set, transmitted to the New York studio of the National Broadcasting Station, and then sent out over a network of stations.

If one be troubled with corns, he will find in Holloway's Corn Remover an application that will entirely relieve suffering.

Judged By Newspaper

No one can deny it. A city is also judged by its newspaper. If its newspaper has a standard in its treatment and display of news, in its features and in its editorial column, these facts soon make their impression. If the newspaper is insufficient, the city will suffer. No institution has a more serious relation to a city's reputation than a city's newspaper.

After Two Years

A bottle thrown overboard, from the liner "Celtic," in July, 1927, has been found at Rochford, France, after two years bobbing over the sea. It had been tossed overboard at some point between New York and the Azores, and the Gulf Stream has carried it across the Atlantic.

Some desert plants contain water which travellers find useful in quenching their thirst.

Minard's Liniment for Neuralgia.

### Plan Nation Wide Broadcasts

Canadian National Railways Have Ambitious Program Mapped Out

"That the next twelve months will see the greatest advance in broadcasting in Canada that has ever taken place since the commencement of the art a few years ago" is the prediction of W. D. Robb, vice-president, Canadian National Railways, in whose department radio is included. "Two major factors will bring this about," continued Mr. Robb. "The extension of regular weekly schedule of network broadcasting on a national scale, and a marked improvement in programs generally, and especially by providing more opportunity for Canadians to hear outstanding talent from their own country."

"I can only speak for the Canadian National Railways, but as the nation's greatest broadcaster, now operating thirteen stations and owning the only system of wires adapted for broadcasting under one direction stretching from Coast to Coast, we are planning to institute marked improvements ourselves and to co-operate in every way possible to assist other broadcasters in doing similarly. Commencing in October, we are planning to extend our National network three times weekly from the Maritimes to the Rocky Mountains, and once or twice from Atlantic to Pacific."

"These regular weekly national broadcasts should go far to create a better mutual understanding among the provinces, unite more closely the elements and interests within our country and remove the feeling of isolation felt in not a few communities."

### Making Long Trip

Party From Jasper Covering Historic Fur Trade Route In Spectacularly Constructed Canoe

With a specially constructed canoe, "Curly" Flinn, well known guide of Jasper National Park, is taking a party of five Americans from the east on a thirteen hundred mile trip through the waterways of the north country, commencing at Summit Lake behind Prince George, B.C., and finishing at Waterways, Alberta, on the Athabasca River. The party will cover the historic route of the fur traders by which many of the early travellers into Western Canada, during the first half of the last century, reached the Pacific Ocean.

### KEEP CHILDREN WELL

#### DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—Baby's Own Tablets will baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The W. Williams' Medicine Co., Brockville, Ont.

### Variety Is Right

E. Olney, of New London, Ohio, believes in variety in settlers effects brought to Canada. He cleared land at North Fort, Sask., with a Reo speed wagon containing household goods. On the trailer he carried a small menagerie, consisting of two raccoons, two guinea pigs, and a badger. Mr. Olney will locate on land at White Court, Alberta.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until pain is secured. There is more virtue in a bottle of it than can be fully estimated.

Keeping a Sound Body

If thou wouldn't preserve a sound body, use fasting and walking; if a healthful soul, fasting and praying. Walking exercises the body; praying exercises the soul; and fasting cleanses both.

Germany is developing its natural parks.

There are no railroads in the Kingdom of Afghanistan.

CORNS

Stop Aching—Drop Off

USE PUTNAM'S

Corn Extractor

W. N. U. 1800

They're brutes for punishment—these Eveready Hot-Shots in the metal cases! Full of fire from start to finish. Best for gas engine, motor boat or tractor ignition. Protected by water-shedding metal cases, rain or dampness will not reduce their efficiency. Look for the name Eveready on each battery. It's your guarantee of satisfaction and longer life.

Eveready Ignitors are the best ever used single dry cells made for use in unattended places.

### A Valuable Seed Pod

Price Of Rare Orchid Is Estimated At \$150,000

Probably the most valuable flower seed pod in the world was recently on display at the Chelsea Flower Show, London, England. A single flower sprang from one of the seeds sold for more than \$1,500, and others sold for \$1,000. It is estimated that the entire pod with seed is worth \$150,000. The pod is the fertilization of a rare orchid, the Milonia Armstrongii.

A commercial fertilizer plant to cost \$7,000,000 is to be built at Trail, British Columbia.

Higher education in Canada is carried on in 23 universities and 85 colleges.

—Charles Kingsley.

### Little Helps For This Week

"Thy kingdom come."—Matthew vi. 10.

Thy kingdom come with power and grace  
To every heart of man;  
Thy peace, Thy joy, Thy righteousness,  
In all our bosoms reign.

—Charles Wesley.

Thy kingdom of heaven is not come when God's will is our law; it is come when God's will is our will, and a kind of noble slaves; when His will is our will we are free children.

Philemon had gone forth to see the world, and he had seen it; and he had learned that God's kingdom was not a kingdom of fanatics; it was a doctrine, both of willing, living obedient hearts.

—Charles Kingsley.

Priceless Relics Preserved

Sweden Has Richest In World Protected By Laws

Sweden's prehistoric relics are the richest in the world, and this is because the same race has inhabited the country for about 15,000 years, says Professor Curman, State Antiquarian. The scientific museums of Sweden contain more than half a million treasures of antiquity. The structure of the landscapes, with patches of fertile soil lying among barren areas, thick forests or craggy hills, has also helped to preserve these materials of ancient days. These natural obstacles have kept farmers from encroaching upon the sites where prehistoric tombs, fortifications and Viking rune stones have been hidden. Moreover, the Swedish Government realized 300 years ago the importance of preserving relics of antiquity and enacted laws to that end.

Might Congest Traffic

A western town is strong for safety first, having a bylaw which reads as follows: "When two cars come to a crossing both shall stop and neither shall start until the other is gone."

If this is carefully observed, there will be few collisions, but some slight traffic congestion may result.

Minard's Liniment for aching joints.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

## NOTES AND COMMENTS

Development of local industry is all important. Man can not live alone by trading, for if everybody tried to live from trading, production would cease, and we would be without the means of sustenance. For instance, the coal companies secure capital to develop coal lands. Miners dig it and others bring it to the surface, with the result that in due time the money comes back to develop additional business. A large portion of this money passes into local circulation, and it is surprising how many times its own value in general business one hundred dollars in cash will produce.

Follow a ten dollar bill around, from the time it leaves the bank in the form of wages paid. It may pay a bill at the stores ten times in its travels before it subsequently returns to the bank as a deposit. On the other hand, if that same ten dollars is remitted to a place hundreds of miles away, its use is lost as far as local business is concerned.

Another example of local industry and its development is shown in a man who comes to your door selling vegetables or eggs. He proudly proclaims that the produce was grown in Coleman, or that the eggs are strictly fresh from his own flock of hens. You are pleased to buy from him, not merely because you may know him, but because you know he has fresh goods. This man is contributing towards the development of local industry, and is producing wealth for himself and the community. With a large working class population he will find a ready market for his wares, and were all the eggs and vegetables that Coleman requires produced and marketed here, it would mean that many thousands of dollars of wealth would be added to the community trading currency.

The people of the United States appear to enjoy sensations. The latest is the keen rivalry created by someone sitting on a small platform mounted on a flagpole for several days. Others have followed his example, after the style of endurance air flyers breaking records. Some may see an element of sportsmanship in this, but others will merely shrug their shoulders. When there are hundreds of existing opportunities every day to devote one's energies in accomplishing something useful, it causes one to ponder at the peculiar kink in people who will applaud the fact that someone has remained on a flagpole longer than have other competitors. The only conclusion one can arrive at is that it takes all kinds of people to make a world. It is surprising to some that a publication as *The Literary Digest* should devote three pages to this latest craze of seekers for publicity. It is a safe bet that were there no publicity for such stunts, people would not indulge in them.

What are bitumuls? To begin with, do not class them with calories or vitamins, for you cannot eat them. To one who is hazy on the definition of bitumuls, Webster's dictionary gives the information that "bitumen is a name given by Latin writers to hydrocarbons now known by different names, from naphtha, the most fluid, to petroleum and mineral tar." But why all this explanation, the reader may ask. Well, simply this! The council has been seriously considering how it can make the gravel on Main street stay put, and has decided to test a small section of road at the busiest intersection with bitumul surfacing. The description given in a booklet published by American Bitumuls Company states that it is "pure bitumen emulsified," giving one the impression that it might be connected with coconut oil or some form of hair shampoo. However, as it will be given a thorough try-out, we may know more about Bitumuls in the sweet bye-and-bye.

The man you are pleased to meet is he who greets you with a smile, and who sees not gloom and slow times ahead, but makes the best of each day in an effort to stimulate business. And the chances are greatly in his favor, for people are attracted to a bright and optimistic person in dull times as well as the good times. It pays to cultivate the optimistic outlook on life and it will help you to enjoy the daily round and the common task. The last person you wish to meet is one who on the first little slump in business begins to have visions of the poorhouse.

The Salvation Army is making its annual harvest appeal next month, and everyone can help a little, for it is on the small givings of millions of people that the Army's work is financed. Help the local officers, to reach their objective by giving them a donation. Its social welfare work is world-wide and embraces people of all religions, caste and creeds, the outcast and the downtrodden.

Generally speaking, people get out of life just what they put into it. If you put energy, optimism and faith

into your work, and spend a little less than you earn, you are on the road to happiness, and the future will be easy for you. On the other hand, if you spend only ten cents more a day than you earn, you are for ever "broke" and will leave debts to be paid by someone else.

After reading that a new dictionary requires 30 000 words to deal with the word "set," it is easy to understand why many hesitate to say offhand whether a hen "sets" or "sits."—Monitor.

## Heard on The Corner

Scotemen and Englishmen were discussing the correct pronunciation of the word "Quilts." The Scot says it is "Kites;" the Englishman persists in pronouncing it the way it is spelled—QUILTS—or "koyts." Jimmy Taylor from Fifeshire says it is "kites," so that settles the argument, for if anyone can speak the language of the Scot with greater fluency and more hurr than Jimmy, we'd like to hear him, for it is quite a test to unravel the intricacies of Jimmy's conversation at times.

That Sandy Dewar has gone on a trip to look for the best homing pigeons on the market to race with the local champions.

That Bill Bell's favorite football team, the Celtics, were defeated by Aberdeen in the Scottish League. The boys are wondering what Bill will have to say now, after the Celtics taking the short end of a 4-3 score.

That Jock Anderson has withdrawn his challenge to meet all comers in wrestling since Jimmy Yates returned to town.

That Bill Holley had his best day's fishing last Sunday. He caught five grayling.

## Life's Tools

When a carpenter goes out to build a house, he first examines his tools to see that they are in perfect condition. A good workman will not work with damaged tools, nor with an essential tool missing. The finished result would be imperfect. He would not have his name associated with such.

Are parents as careful as the good workman? So many small children are to begin next month to build the foundation for the future structure of their lives. Are their tools in perfect working order? Eyes and ears, heart and lungs—in fact, the whole structure that makes up the little body. Unless they are in perfect working condition, the child starts with a handicap that nothing in later life can overcome. The structure that he builds will be imperfect, and he is not responsible.—HIS PARENTS ARE!

No child should start school without a complete physical examination, without having defects, if any, remedied, without being in perfect working condition. That is his birthright—Red Cross Bulletin.

## The Dust Nuisance

On Monday of this week, Alberta St. between Central Avenue and the railway was given a treatment of Dowflake, as an experiment to keep down the dust. The result will be watched with the keenest interest and if successful, it is the purpose of the council to do all the business streets of town.

The one block took about two tons of the preparation which cost approximately \$120.00, laid down, and if it proves satisfactory, may be considered very cheap.

There is no reason why the Dowflake should not work on our streets. It is proving successful in other places that have tried it out.—Innisfail Province.

Mrs. Altermatt is dividing the drum work in her orchestra between Johnny Kostelnik, well known drummer from Hillcrest, and Bill Picard, younger brother of her former drummer, Howard Picard Young Bill, after only a few weeks training by Altermatt, surprised everyone by playing like a veteran and shows the same brand of pep his brother always put into his drumming.—Blairmore Enterprise.

First-aid competitions for the Pans towns will be held in Blairmore on Sept. 28, of which full particulars are given on posters in circulation.

## BIG OPPORTUNITY FOR CANADA TO SECURE TRADE

Vancouver.—Vancouver's strategic position for trade with the Orient, if Canada takes full advantage of the gradual awakening of hundreds of millions of Chinese to the value of modern machinery and, more important, import the food quantities of wheat as compared with rice, was described by Sir Henry Thornton, president of the C.N.R.

At a meeting tendered by the mayor and Aldermen to the president and regional officers of the C.N.R., Sir Henry pointed to China as a slumbering giant awakening, perhaps by sections, but nevertheless.

"Hundreds of millions of people are there who have not yet become alive to the fruits of civilization," the speaker declared. "But they are awakening to the value of implements, machinery and railways, and what is more important still to Canada, is the food value of wheat in preference to rice. The demand which will follow in the train of this awakening is an alluring field for this dominion, and Vancouver is the port through which most of the business with that country must be done.

"Canada would be well advised as a nation to systematically and in concentrated fashion attack the opportunities for trade in China and get in on the ground floor."

## New Anaesthetic Gas

Inventor Claims It Is More Rapid and Recovery Is Quicker

Toronto.—The Mail and Empire publishes the following special despatch from Boston:

A new anaesthetic gas has been prepared by Dr. G. H. W. Lucas, of Philadelphia, and Prof. V. E. Henderson, of the University of Toronto, it was explained at the International Physiological congress at the Harvard medical school. They claim for it properties which make it appear as similar to nitrous oxide, but with more satisfactory after-effects.

It is apparently a carbonic gas. Apparently anaesthetization is rapid, with little or no struggling, and recovery takes place almost equally as rapid.

Animals were anaesthetized on three successive days for periods of two hours without showing any apparent subsequent toxic effects.

Respiration is of a normal rate and depth, and the blood pressure rises slightly or remains normal.

## Buys Canadian Cars

Australia Good Customer But Buys Cycles From England

Canberra, Australia.—Out of 100,000 complete motor cars imported to Australia in the 12 months ending June 30, 66 per cent. were from the United States, 23 per cent. Canadian, and the remaining 11 per cent. English.

The scales were turned when it came to motor-cycles, however, for more than 80 per cent. of the motor-cycles imported in the 12 months came from Great Britain.

## To Be Deported

Sixty British Immigrants At Winnipeg Refuse To Work

Winnipeg.—Sixty British immigrants, who came to Canada under the assisted passage scheme, have left here for the Atlantic seaboard under deportation arrangements. The men came to Canada about four months ago.

At the immigration hall here it was declared the men, with few exceptions, not only refuse farm work, but also any kind of work, insisting on being returned home.

Speeding Up Mail Delivery

New York, N.Y.—Catapulted from the deck of the North German Lloyd liner "Bremen" at 6 p.m., while 200 miles from shore, the seaplane New York, brought five sacks of mail to the liner's Brooklyn pier at 7.50 o'clock. This speeded the delivery of the 2,000 letters and post cards by about six hours.

Lindbergh Chosen As Pilot

New York.—Col. Charles A. Lindbergh will pilot the first plane on a 1,240-mile extension of the Pan-American Airways line to South America, J. T. Trippe, president of the line, has announced.

W. N. U. 1800

## Facing Grain Shortage

Russia Will Have To Import Wheat Says Soviet Official

London, England.—A wheat shortage in Russia was indicated today in an Exchange Telegraph despatch from Moscow, via Riga.

The despatch said that Michael Kalinin, president of the Soviet Central Executive Committee, despite his previous prediction that the Soviet harvest would be 5,000,000 tons greater than in 1928, was now reported to have said that Russia must import 50,000,000 roubles worth of grain or force the peasants to work harder.

The situation was declared to be precarious, because of a prolonged drought in the south Ukraine, Volga and Caucasus regions.

## Ottawa Will Purchase Serum From Winnipeg

Many Cases Of Infantile Paralysis Make Action Necessary

Ottawa.—Mayor Arthur Ellis, of Ottawa, has given authority for the purchase of serum valued at \$500 from Winnipeg for the treatment of infantile paralysis cases in the city. Mayor Ellis' action came following an interview with Dr. W. W. Shively, acting medical officer of the city, at which the health official recommended the purchase owing to the difficulty of obtaining the serum locally.

The number of cases reported in Ottawa to date, is 19, which is regarded as an abnormal situation.

## Few Harvesters From Coast

Less Than Five Hundred Have Left Vancouver This Season

Vancouver.—With lighter crop and new labor-saving machinery in use on the prairies, only 432 harvest laborers have left Vancouver on the harvest excursions so far this season, it is announced by J. P. McVety, superintendent of employment. In addition 125 have gone from New Westminster and from other centres. So far only those with jobs guaranteed have been granted the \$10 rate, but as the extent of the harvesting operation grows a few others will be allowed to take their chance of employment.

## Trying To Escape Penalty

Graf Zeppelin Stowaway Jumps From Steamer But Was Recaptured

Hamburg, Germany.—Albert Buehler found it easier to stow away on the Graf Zeppelin for its last flight to Lakehurst than he is now finding it to escape the penalty. He jumped overboard from the steamship "Thuringia" as it entered this port but was soon fished out by a passing lighter and was locked up again on the liner. His stepfather was waiting for him here but was not allowed to take Buschko until the courts have dealt with him.

## Resigns His Position

Hon. C. M. Hamilton Succeeded By Hon. George Spence

Regina.—Resignation of Hon. C. M. Hamilton, minister of agriculture for the province of Saskatchewan, was received by Premier Gardiner, to take effect immediately. Mr. Hamilton has gone to the Head of the Lakes on work regarding his appointment to the Board of Grain Commissioners of Canada.

Hon. George Spence becomes minister of agriculture, according to the announcement made this morning by Premier Gardiner.

## To Test Dirigibles

London, England.—The British dirigibles R-100 and R-101 will be given shed trials during this week. It is expected the R-100 will be launched and taken to Bedford within a month, while the R-101 probably will be launched late in September. One of the dirigibles is to make a flight to Canada and the other to India.

## Resigns Post

Saskatoon, Sask.—Forced by ill-health to return to his old home at Ellyth, Ont., Frank Metcalf, Dominion fruit inspector in Saskatchewan for 18 years, is being succeeded here by J. G. de Jong, of Winnipeg. Mr. Metcalf was presented with an address and purse of gold by fruit men of the city.

## Minister's Daughter Fined

London, England.—Miss Dorothy Thomas, youngest daughter of Rt. Hon. J. C. Thomas, was fined £10 for being in London for causing obstruction by leaving her automobile in St. Paul's Churchyard.

## Making Attempt To Overtake Zeppelin

French Air Ace Has Ambition To Beat Dirigible To Lakehurst

Le Bourget, France.—Dieudonne Coste, French air ace, has started on a flight around the world in pursuit of the German dirigible Graf Zeppelin, which he hoped to overtake and pass before she could reach Lakehurst, N.J., and New York.

The French aviator, who has already made a flight around the world since he crossed the south Atlantic ocean in 1927, told an intimate friend that he would attempt to break the world's non-stop distance record for aeroplanes on the first stage of his race around the world with the Zeppelin.

## RUSO-CHINESE WAR SITUATION BECOMING GRAVE

Shanghai.—The Nationalist Government semi-official Tachung News Agency issued a despatch under a Harbin date line, saying "although no major developments have taken place on the Manchurian frontier during the past two days, both China and Russia are quietly preparing for war."

The Chinese authorities declared martial law throughout the entire length of the Chinese Eastern Railway as the result of the "increasing gravity of the situation as well as because of a number of incidents along the railway such as the derailing of trains as well as the recurrence of sabotage by both Russians and the Chinese Communists."

The despatch added that the Kirin provincial government had ordered two artillery brigades to proceed to the eastern border of Kirin province to oppose alleged raids by Russian troops. Telephone communications from Harbin to the east have been interrupted and Communist agitators are believed guilty.

A military communique considered to have an ominous aspect, was issued by the semi-official news agency Tachung, stating: "Reliable circles indicate that the Manchurian situation may be expected soon to assume a different aspect inasmuch as the Soviet military demands have failed to produce the desired effect."

The official Nationalist News Agency has issued a bulletin under a Mukden date, saying:

"It is learned that some Japanese military officers were found within the Soviet army. It is reported that the Soviet and Japan have entered an agreement whereby Japan promised to assist Russia, the latter promising to give up fishing rights in the North Saghalien in favor of Japan. In addition it is believed that Japan is strongly opposed to the powers' intervention in the Sino-Russian crisis which move the United States is believed to have attempted."

## Will Visit U.S. Soon

Washington.—Reliable information here says that Ramsay MacDonald, British premier, will sail to U.S. within six weeks.

## SERVING AT THE HAGUE

Hon. P. C. Larkin, Canada's high commissioner in London, who was appointed to represent Canada at the reparations conference, at The Hague.

## Clips Four Hours Off Record

But "Mauretania" Two Hours Long, or Than Bremen On Eastward Crossing

Plymouth, Eng.—The Cunard liner "Mauretania," recently depoyed by the North German Lloyd liner "Bremen" as the speed queen of the seas, arrived here from New York on her first eastward crossing since she was overhauled in an attempt to crack the "Bremen's" new record.

The "Mauretania" made the eastward crossing in 4 days, 17 hours, 49 minutes, beating her old record by four hours, but falling by two hours to make the time which the "Bremen" made on her first eastward crossing. The "Mauretania" averaged 27.22 knots.

## Four Drowned At Stettler

Boat Upset In Buffalo Lake When Storm Broke

Stettler, Alberta.—Hurled into the choppy waters of Buffalo Lake, when a storm broke, two men and two boys were drowned, and another rescued when the small boat to which he was clinging was blown to shore.

The dead are: W. J. Burrell, of Hanna and his two sons, Ernest, aged 10 years, and John, aged 12 years, and Sidney Steele, also of Hanna. The lad rescued was Harold Burrell, aged 16 years, also a son of W. J. Burrell.

## Georges Clemenceau Ill

Paris.—Georges Clemenceau, the aged war-time premier of France was taken suddenly ill at his cottage at Les Sables d'Olonne, on the Bay of Biscay, in Vendee. A doctor summoned from Paris, said, "The Tiger" was over fatigued from writing a book on the war and advised a complete rest. Clemenceau is 83.

## Prepare To Evacuate Rhineland

Brussels.—Belgian troops are preparing for evacuation of the second Rhineland zone on September 15, as an outgrowth of The Hague conference, and as a token of the conciliatory spirit of Belgium toward Germany.

## Americans Show Real Friendship

Help Fight Stubborn Fire On Canadian Farm Near Border

North Portal, Sask.—Fire supposedly starting from a strawstack on the Franke farm, seven miles northwest of North Portal, spread to the prairie grass and threatened the crops and buildings on this and surrounding farms. Fire fighters were soon on hand and worked into the night getting it under control, but it again broke out and a general alarm was sent out by phone and by the blowing of the fire whistle in Portal, N.D.

Citizens, railway employees, customs and immigration officers from both sides of the boundary, headed by Sergt. Bradley, R.C.M.P., turned out in full force, leaving the towns almost deserted, and joined with the farmers making an army of 300 men who fought the flames for five hours, and by backfiring and plowing of fire guards prevented loss of crops and buildings except an old barn on the Almon farm. One of the fire engines from Portal, N.D., was run out to the John Waddington farm in case it might be of use in protecting the farm buildings. The fine spirit shown by the citizens from the U.S. side in helping out the Canadian farmers is highly commended and much appreciated. The dry prairie and the high wind made this one of the most dangerous fires ever known in this district.

## Britain and France Sure To Co-Operate

Reparations Problems Will Not Affect Friendship Says Hon. Jean Knight

Vancouver.—Problems resulting from the failure of Germany to meet her reparations payments to those countries which suffered great losses as a result of the World War, will be settled so far as Britain and France are concerned, in a spirit of understanding and co-operation, declared Hon. Jean Knight, first minister of France to Canada, when he addressed a luncheon meeting of the Canadian Club here.

The guest of honor said that although reparations problems offered great difficulties to the nations affected directly by these payments, he was sure that the friendly co-operation of Britain and France would continue.

"Equity and justice based on a thorough understanding will mark the settlement," he declared.

## VARIOUS REASONS ARE GIVEN FOR GRAIN TIE-UP

Montreal.—Wariness of the European buyer; consumption of home-grown wheat in many European countries; the price of Canadian wheat is 100 cents; "market conditions" were various reasons ascribed in different quarters to the tie-up of Canadian wheat in Montreal, and other eastern points.

Whatever the cause, there are 120 inland ships laid up in the ports between the Atlantic and the Atlantic and some 1,800 Canadian sailings. It is estimated, are idle; the bins of elevators here are practically full and there is no indication of a break.

While the large steamship concerns are feeling the pinch keenly, with probably half of their ships standing idle, the lot of the small owner, of the man with one or two ships, is even more serious.

The new crop will be on the move very shortly, but marketing conditions are unsatisfactory. Local dealers report both the United States and the Argentine as underselling Canada, and while the European buyer must have a certain amount of Canadian grain, he is buying a minimum in the face of this competition, it is stated here.

Canadian seamen, out of employment through the tie-up, are going to the United States in search of employment, declared J. H. Fare, president of the Canadian Seamen's Association.

The present hold-up of grain in the port of Montreal is wholly question of price. The time will come when either we shall have to meet the view of the European buyer on price, or he will have to meet ours. In the meantime, our products are not moving, said Frederick Heywood, export manager for James Richardson and Sons, Limited. He held that Canadian prices were wholly a matter of market conditions and did not hold the Canadian wheat pool to blame.

## BELIEVE NAVAL PARLEY PLANS NEARLY FINISHED

Washington, D.C.—Developments in the naval reduction negotiations between the United States and Great Britain are rapidly reaching the point where representatives of the two nations will be able to inform the public as to whether a conference will be held this present year.

Disclosure at the White House that Prime Minister Ramsay MacDonald is now expected to arrive at Washington early in October for a conference on the naval situation with President Hoover was interpreted by official Washington as strong indication not only that a naval parley will be held, probably in December, but that it will have a good chance of being successful. The deduction drawn from the answers of the White House to questions regarding the significance of MacDonald's coming to the United States was that the British official would not be likely to make the trip to Washington unless the great work was prepared in advance for a conference.

The present exchanges between the British and American governments, of which France, Italy and Japan are being kept fully informed, are apparently shaping towards a final Great Britain issue the invitations for the conference, with London as the meeting place.

## Italian 'Planes Wrecked

Were To Be Used In Race For Schneider Cup

Sensano, Italy.—Italy is rearranging her plans to capture the Schneider Cup from Great Britain, September 7, as a result of the wrecking of two Fiat biplanes, and the lack of sufficient time to give the third Fiat a complete and thorough trial. Nine machines are left out of the 12 that Italy had groomed for the supreme speed test.

The biplanes were regarded as the masterpiece of Italian aviation. They were designed by the engineer, Ronastelli, and their motors were planned by the engineer Zerbe, of the Fiat company. They are known as the lightest weight 'plane weighing only 2,000 pounds including the motor.

## Assembling Large Seaplane

Buffalo Concern Plans To Use It On Great Lakes

Philadelphia.—A seaplane capable of carrying 20 persons, believed to be the largest in America, is being assembled at the Philadelphia navy yard. It is destined for operation on the great lakes by a Buffalo concern.

It will carry 30 passengers and a crew of 20. It has a wing spread of approximately 94 feet, four air-cooled motors of 450-horsepower each, and gasoline capacity of 10,000 gallons.

## Floods Destroy Persian Town

Teheran, Persia.—A flood which drowned 100 persons and destroyed 5,000 houses, was reported from Tabriz. The custom house with 3,200 bales of merchandise was damaged and streets washed out in places to a depth of nine feet. The government has authorized immediate expenditure of \$4,000 for the erection of levees.

## Widow Placed Under Arrest

Shebo, Sask.—Annie Pasowsky has been placed under arrest in connection with the murder of her husband, Nick Pasowsky, who was found shot to death August 1. John Pasowsky, who confessed to killing his father is at present in custody at Prince Albert.

## Had To Cancel Engagement

Calgary.—Stricken with illness upon his arrival in Calgary, the Right Hon. Lord Hanworth, P.C., K.B.E., master of the robe of London, Eng., who was to have addressed the Calgary Bar Association at luncheon, was obliged to ask that the engagement be cancelled.

## Daylight Flight Possible

Roosevelt Field, N.Y.—Capt. Roscoe Turner, who took off with three passengers from Glendale, Cal., in an attempt to demonstrate the feasibility of a daylight transcontinental aeroplane passenger service, landed here, making the trip in 19 hours and 53 minutes.

Road making in Britain used up 13,040,000 tons of granite and limestone in 1927, produced from British quarries.

PRINCESS MARY'S ELDEST SON

Hon. George Lascelles, one of two sons of Princess Mary, who is said to resemble his mother very little, but to be the proverbial dark image of his dad, Viscount Lascelles.

### Personal and Local

Rock Sudworth, Louis Brown and Jim Yates have returned from a motor trip to the coast cities.

Mamie Hill, nurse in training at Holy Cross hospital, Calgary, arrived home on Tuesday for her holidays.

Annie Stevulak returned on Tuesday to Trail, after two weeks holiday at her home here.

Ross Powell of Calgary was here this week visiting at the home of his parents.

W. Roughhead and Robert Hubert enjoyed a motor trip during the week, visiting Turner Valley and Calgary.

Gladys Neilson is home from Calgary, and her sisters Margaret and Esther have returned from holidays at Nanton.

Mr. Robert Holmes has returned from a holiday at Trail, B. C., and Mrs. Holmes is remaining there for awhile visiting her three sons.

Mrs. Carson left on Thursday for Winnipeg and Toronto, after spending the summer with her parents, Mr. and Mrs. G. R. Powell.

L. L. Morgan of Crows Nest Pass Motors, called in this morning on his way to Fernie to look over business of their branch in that city.

Mr. and Mrs. Hoyle and children returned this week from their vacation at Seba Beach and other places of interest in Alberta.

Mrs. John McCartney left on Friday for Everett, Wash., and Vancouver, for a two or three months holiday.

Corrie Celli left on Monday morning to attend Templeton junior high school, Vancouver, after spending the summer vacation with his parents.

Mrs. W. H. Garner and children recently arrived at their home in Inverness, Scotland, where they will spend a few months with relatives and friends.

Miss Ella Celli, niece of Mr. and Mrs. Frank Celli, and Miss Barnes of Blairmore, nurses in training at Holy Cross hospital, Calgary, are spending two weeks holiday here.

Miss Edna Fairhurst will commence teaching at a school near Lee Lake on Tuesday, this being her first appointment since completing her Normal school course in Calgary.

Ladies! Your attention is directed to the special offer in the advt. of Antrob's Shoe Store in this issue. A pair of Woods Lavender Line Hose free or a pair of bloomers. Read the details.

The younger members of the Salvation Army enjoyed a hike to Fleming's farm west of town last week, where the beauties of the valley and the surrounding mountains were greatly appreciated.

Mrs. A. Beveridge and Mrs. W. Milly during their holiday at Vancouver, attended a birthday party of another Colemanite, Mrs. Fyle, who with her husband has been spending a holiday there.

In the Rod & Gun Club competition at South Fork on Sunday the biggest trout was won by J. Knushdill, the biggest grayling by Edgar Thomas and the biggest bull trout by A. Phillips, sr. Fourteen members took part.

Mrs. J. M. Allan and son returned on Friday from a holiday at Vancouver, and her daughter Margaret returned on Thursday from Red Deer, where she had been spending part of the school vacation.

Mr. and Mrs. J. S. D'Appolonia, accompanied by Frank Celli, motored to the latter's fruit ranch at Creston last week for a brief visit, and made a quick trip on the return, leaving Creston about 1:30 and reaching here by 10:30 p.m.

Mr. and Mrs. James Ford returned this week from an enjoyable vacation trip to Vancouver and Victoria, their son Lawrence and daughter, Mrs. Shields accompanying them. They took their car across by ferry to the Island, which made their stay there much more enjoyable.

It is reported that Mrs. Thom and children will shortly leave for Vancouver, where Mr. Thom has been for several weeks, he having secured employment there. They have lived here for several years, and have been active workers in support of St. Alban's church.

A village or neighborhood unit of 5000 population can support 70 stores, one hotel, one motion picture theatre, one bank, and 10 garages, according to estimates just made public in a new report on the neighborhood unit published by the Regional Plan of New York and its environs.

A seven year old boy living not far from Vernon was bitten by a rattlesnake last week. He was rushed to the hospital and was treated with anti-venom serum, and was able to be taken home in a few days. Some time ago a Vernon school boy lost his life by being bitten by a rattler, and since then the hospital there has kept a quantity of serum on hand for such emergencies.
